Why investors choose BEVCA

Daily plan tracking Monitor active investments, maturity dates and credited returns from your dashboard.	Diversified access Move beyond one market with crypto, mining, real estate and automotive assets.
Crypto funding Fund accounts using Bitcoin, Ethereum and USDT across ERC20, TRC20 and BEP20 networks.	Investor support Get help through live chat, Telegram and email while your requests are reviewed by the team.

The figures and projected values in this brochure describe the available programs and targets shown on the BEVCA platform. Review the applicable terms before participating.

Investment plans

Choose a plan that matches your budget and preferred timeline. The current platform plan range starts at \$20 and displays daily returns between 2% and 4.5%.

Plan	Daily ROI	Duration	Minimum	Maximum
Starter	2.0%	30 days	\$20	\$999
Silver	2.8%	30 days	\$1,000	\$4,999
Gold	3.5%	45 days	\$5,000	\$19,999
Platinum	4.0%	60 days	\$20,000	\$49,999
Diamond	4.5%	90 days	\$50,000	\$500,000

Funding rails

Asset	Available networks	Use
Bitcoin (BTC)	Bitcoin network	Deposits and investment funding
Ethereum (ETH)	Ethereum network	Deposits and investment funding
USDT	ERC20 • TRC20 • BEP20	Stable-value deposits and withdrawals

From registration to payout

1 Register	2 Fund	3 Invest	4 Earn	5 Withdraw
Create an account	Send supported crypto	Choose a plan	Track from dashboard	Submit a request

Cryptocurrency investment

Access a focused digital asset portfolio built around Bitcoin, Ethereum and USDT. The platform presents crypto funding, active investment plans and account-level transaction tracking in one place.

	Bitcoin (BTC) A scarce digital asset used for long-term exposure and account funding.
	Ethereum (ETH) A programmable network asset supporting the wider digital economy.
	USDT A stable-value asset available across ERC20, TRC20 and BEP20 rails.

Digital asset approach

- Build a diversified allocation across BTC, ETH and stable-value USDT.
- Select a plan and monitor balance, returns, maturity and transaction history.
- Use the supported network carefully when funding or requesting a withdrawal.

Every transfer should be checked against the selected asset and network before it is submitted.

Crypto mining and Bevca Gold Coin

Industrial crypto mining

BEVCA presents mining participation through high-efficiency infrastructure in low-cost energy regions. Investors participate in mined-block rewards without purchasing or maintaining hardware directly.

Daily payout tracking

Mining allocations and credited rewards are shown alongside other account activity.

BGC presale

Bevca Gold Coin (BGC)

The presale desk presents BGC at **\$10 per coin** with a projected post-launch value of up to **\$100 per coin**. Orders are submitted from the investor dashboard and credited after payment confirmation.

Payment support: Bitcoin, Ethereum and USDT using the available wallet networks.

Presale and launch values are presented as platform targets and are not a guarantee of future market value.

Real estate investment

Fractional access to income-producing residential and commercial property across global financial hubs. The featured estate below is presented on the website as a \$20,000,000 flagship real estate opportunity.

The Sovereign Palm Estate • Beverly Hills, California, USA

Property value	Annual yield	From	Profile
\$20,000,000	10.8%	\$5,000/share	2.4-acre luxury estate
14 bedrooms	18 baths	21,500 sq ft	Income-producing short-stay program

The featured property includes a gated resort-style compound, infinity pool, private cinema, spa pavilion and panoramic canyon views. Investors can explore additional commercial, mixed-use and residential listings through the real estate section of the website.

Car investment

Fractional ownership in appreciating supercars, classic cars and income-producing luxury rental fleets. The portfolio combines rental cash flow, chauffeured programs, experience bookings and potential collector appreciation.

Toyota Tacoma TRD

Utility Fleet • 9.4% annual yield

Mercedes-Benz G63 AMG

Luxury Rental • 12.8% annual yield

Porsche 911 Carrera

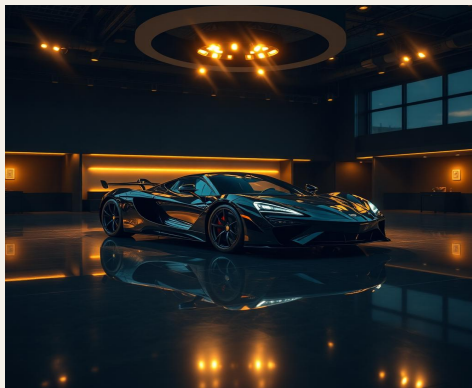

Experience Rental • 13.6% annual yield

Range Rover Autobiography

Luxury Rental • 11.2% annual yield

Flagship vehicle

Aurelion GT-X

Limited-edition supercar listed at **\$1,850,000** with a stated annual yield of **14.2%** and fractional access from **\$2,500/share**.

Revenue channels include chauffeured events, film and photoshoot bookings, brand activations and collector appreciation.

Investor loan program

Qualified investors can request short-term liquidity between \$5,000 and \$20,000. A mandatory 5.5% collateral deposit is calculated automatically for each application, and the request is credited after the team confirms the collateral payment.

Loan applications require an ID upload for review and verification.

Loan request	5.5% collateral	Loan status
\$5,000	\$275	Pending review / collateral confirmation
\$10,000	\$550	Admin verification before approval
\$20,000	\$1,100	Credited after confirmation

Application flow

- Choose a loan amount from \$5,000 to \$20,000.
- Upload a government-issued ID with the application.
- Pay the displayed 5.5% collateral and submit the transaction reference.
- The admin team reviews the ID, verifies collateral and updates the application status.
- Approved funds are credited to the investor balance and loan history.

Security, support and getting started

BEVCA is designed to keep investing, funding and account support in one place. Investors can review their balances, active plans, loan records, BGC orders and transaction history from the authenticated dashboard.

Account controls Encrypted communications, secure document handling and profile-level activity tracking.	Review process Deposits, withdrawals, collateral payments and BGC purchases are reviewed by the team.
Support channels Live chat, Telegram support and email assistance for account questions.	Verification Identity verification is required for loans and may be requested for larger withdrawals.

Start with BEVCA

- 1. Visit the website and create an account.
- 2. Choose your investment area: crypto, mining, real estate, cars or BGC.
- 3. Fund using the supported crypto network and confirm the details carefully.
- 4. Use your dashboard to follow returns, maturity, loan history and transactions.
